

Wye Community Farm Meat Boxes

Beef box

Our cattle are Sussex and British White, two of Britain's oldest native breeds. In grazing the chalk grassland on the Wye National Nature Reserve, they play a central role in maintaining habitats for a wide range of rare and endangered plants and animals. The cattle live a stress free life on the Downs, before travelling to a local, family run abattoir where the beef is hung for three weeks to allow the full flavour to develop.

Each finished animal is split equally into 10 boxes, with a typical box containing: Sirloin Steak, Rump Steak, Frying Steak, Topside/Silverside, Ribs, Shoulder, Chuck Steak, Leg, Stewing Steak, Mince. Each box is priced at £7.50/kg, with a box weighing around 18kg.

Lamb box

Our lamb is produced from the WCF flock of Poll Dorset/ Dorset Horn sheep (The same breed, but the polled variety having been selected to breed without horns). We also have a small flock of Portland sheep, an ancient rare breed from which the Dorset Horn was developed.

Each box contains half a lamb: leg (halved), shoulder (halved), loin and chump chops, cutlets, breast (boned and rolled or minced). Priced at £6/kg, a half lamb box weighs around 9 kg.

Pork box

Our pigs are two traditional English breeds, Berkshire and British Saddleback, purchased as weaners from local breeders and reared on a diet rich in outgrade vegetables from Ripple Farm Organics.

Each pork box contains half a pig; leg (halved) shoulder (boned and rolled), chops, and sausages (lots of!). Priced at £6/kg, each box contains about 16kg of meat. The pork box lends itself to being split equally two ways, so if you would like pairing up with a 'pig pal' to share your box with indicate this on the order form.

For more information, including photos of our meat boxes, visit our website
